

## Swedish National Agency for Education and SoNET Systems Announcement

As a result of the procurement process for the **National Digital Assessment Platform** we are happy to announce that selected supplier is SoNET Systems Pty Ltd from Melbourne Australia.

**The Swedish National Agency for Education** was commissioned to develop and provide digitalized national tests and material to support assessment for the compulsory school and for the upper secondary school level. The commission to provide digitalized national tests also includes a trial operation which will be conducted in 2018-2021. The goal is that all tests will be digitalized by 2022. On each test occasion, it is estimated that up to 150 000 students will carry out the national test at the same time.

**SoNET** will provide its internationally renowned **Assessment Master™** software platform that delivers an end to end solution for running large scale assessments including item and test creation, student and test delivery management, online and offline test delivery options, automated and manual scoring, reporting and use of AI. **SoNET** will provide implementation, enhancements to the solution based on Skolverkets' needs, maintenance, ongoing support and hosting services for this exciting project.

**SoNET** brings over 14 years of experience in provisioning of digital assessments at an international level and across Australia. Over that period, together with partners, customers and industry experts, **SoNET** has developed a robust web-based assessment platform that is provided as Software as a Service (SaaS). The system is highly scalable, secure and proven to deliver tests servicing thousands of students concurrently utilizing the near unlimited capacity provided by Amazon Web Services.

### About Skolverket - Swedish National Agency for Education

The Swedish National Agency for Education is the central administrative authority for the public-school system, publicly organised pre-schooling, school-age childcare and for adult education. The Swedish National Agency for Education is tasked with ensuring that all children and students have access to the same high-quality standard of education and activities in secure environments. The Agency's mission is to create the best conditions for the children's development and learning and to help improve the students' learning outcomes. The agency prepares knowledge requirements, regulations, general recommendations and national tests. The Agency are also responsible for official statistics in education and we conduct national follow-ups and evaluations. The Agency also oversee Sweden's participation in international education surveys. ([www.skolverket.se](http://www.skolverket.se))
